

INTER-DEPLOYMENT TRAINING CYCLE

The following Inter-Deployment Training Cycle review contains recommended training milestones for ARG intelligence/cryptologic professionals.

PRE-360	Command Assessment of Readiness and Training, Phase I (CART I): Conducted during return transit from deployment or 18 months prior to deployment.
	Review Surface Force Training Manual, planned systems configuration, and schools/NEC requirements set forth in EDVR/ODCR to develop a Long Range Training Plan (LRTP). The PHIBRON N2, SIO and MEU S2 should work together to develop the LRTP, scheduling as much training as possible during this phase. <u>Refer to COMPHIBGRU THREE TRAINING COMPENDIUM for required courses and other available training.</u>
	Participate in all inport intelligence exercises generated by FITCPAC/JITAP/JICPAC/ATG (until D-30).
D-360	Evaluate, review and practice CSTT scenarios. Update intelligence and incorporate required exercises into scenario play.
	Identify required FXP exercises and incorporate into work-up schedule: INT-1-SF (MS) INTELLIGENCE COLLECTION & REPORTING TEAM INT-1-SF (RP) INTELLIGENCE REPORTING - LOCATORS INT-1-SF (OP) OPINTELLIGENCE DATA COLLECTION INT-2-SF (OP) OPINTELLIGENCE PLOT AND BRIEF INT-2-SF (RP) INTELLIGENCE REPORTING - IIR INT-3-SF (OP) C2W/INFO WARFARE CONN INT-3-SF (BF) AREA THREAT BRIEF INT-4-SF (RP) SURVINTCOLEX INT-5-SF (RP) INSEA/DANGER MIL ACTS EXERCISE INT-7-SF (MP) INTELLIGENCE SUPPORT TO PLANS FOR EVAC OPS C2W-30-SF DETECTION, CLASSIFICATION, AND TRACKING C2W-33-SF TACTICAL AIR TARGETING C2W-36-SF GLOBAL COMMAND AND CONTROLLED SYSTEM-MARITIME (GCCS-M) SPECIAL COMPARTMENTED INFORMATION (SCI) EXERCISE C2W-37-SF RADIO DIRECTION-FINDING EXERCISE C2W-38-SF CRYPTOLOGIC STIMULATOR EXERCISE (CSE) CCC-13-SF EMERGENCY ACTION PLAN CCC-18-SF TACTICAL INTELLIGENCE COMMUNICATIONS OPERATIONS CCC-19-SF COMMUNICATIONS ASSESSMENT CCC-20-SF SYSTEM CONTROL SI TERM/Z TERM CCC-21-SF SYSTEM CONTROL OPINTEL BCST/SI COM (N SYS) CCC-22-SF SYSTEM CONTROL SPRAC NET CCC-23-SF CRITIC HANDLING PROCEDURES

	CCC-30-SF OTAT/OTAR CCC-36-SF SCI ADNS COMMUNICATIONS OPERATIONS EXERCISE NCO-1-SF PREPARATIONS FOR ELEX SPACES NCO-11-SF CLASS "C" FIRES ELEX SPACES NCO-12-SF EQUIPMENT CAUSALTY REPAIR NCO-15-SF ALTERNATE POWER SOURCE NCO-16-SF ECC/ESS
	Command Assessment of Readiness and Training, Phase II (CART II): ATG assessment conducted 12 months prior to deployment or within eight to ten weeks after completion of maintenance availability (ROH, SRA, DSRA, etc). The Combat Systems portion is one week and ATG embarks with two IS and three CT for large decks and one IS for LPD with an IS assigned. Checklists are used for performance/knowledge based demonstrations and for administrative assessment of operations.
D-270-D-180	Tailored Ship Training Availability (TSTA A): Provides tailored training lectures and exercises to develop the Combat System Training Team's (CSTT) ability to conduct drills/exercises, improve briefing techniques, develop scenarios and train and assess watch teams. Conducted during one week inport and one week underway by one IS and one CTR/O. Basic training courses in a classroom setting can be provided based on requirements. Instructor Guides are provided to enhance shipboard training. Practical, hands-on training is provided to the Combat Systems Training Team (CSTT) IS/CT members to integrate scenarios into training evolutions.
D-270-D-180	TSTA B: Almost coincident with TSTA , TSTA B allows the CO to concentrate on integrated team training. ATG evaluates CSTT as they develop and conduct basic level integrated training. Normally, the time is used to conduct well deck and flight deck operations. ATG assistance is available if needed or requested.
D-190	Final Evaluation Period (FEP): The basic phase of training culminates in this 3 day, multi-warfare, multi-threat underway training period. At this point, the CSTT should be in the assessment mode only as the ship repeatedly transitions from condition III to condition I. ATG provides 2 IS's and 1 CTR/O to observe, evaluate and assess readiness for intermediate level training. COMMENT: To pass, 65% of required FXP exercises must be completed at this point. Upon implementation of Objective Based Training, 100% of core skills must have been demonstrated. The watchstanders and CSTT will both receive grades.
D-180	Tailored EWIC at FITCPAC for ARG/MEU (includes collection management training provided by NIMA CSRT).
D-180	COMPHIBGRU THREE Mentoring Session 1: The mentoring program provides an

	<p>opportunity for ISIC Intelligence and Cryptologic personnel to review the ARG training plan and any outstanding man, train, and equip issues. The first session should include a discussion of the long range training plan (LRTP), an overview of systems installations and associated training, and an overview of ARG augmentation teams and ship manning levels. The ISIC should coordinate participation with the most recently returning ARG intelligence and cryptologic personnel in order to leverage the most recent operational experiences and lessons learned.</p>
D-180	<ul style="list-style-type: none"> Battle Group- Amphibious Ready Group Intelligence Course (BGARGIC): (CIN: J-3A-0952) BGARGIC is the first course in a three-phase ARG planning program. BGARGIC is a five day "workshop" coordinated by the N2, which reviews methods used to direct, collect, disseminate and analyze intelligence as discussed in Naval Doctrine and Tactics, Techniques, and Procedures.. Discussion topics should include deployment schedule, ARG organization, threat forecasts, intel reporting, C4I architecture and intel/cryptologic resources. This is also an excellent opportunity to arrange for tailored briefings on C4I systems. Phase two is PDIC and phase three is the post deployment brief addressed below.
D-180	<p>Inhouse Intelligence Team Trainer: (First of three 5 day sessions. The inhouse Intelligence Team Trainer (ITT) is conducted at FITCPAC and provides a realistic training environment where intelligence watch teams can practice skills and refine operational procedures necessary to support tactical decision makers.</p> <p>a. The ITT simulates EXPLOT and JIC watch centers. Training is scenario driven and tailored to meet specific training objectives that are determined by participants and FITCPAC prior to the training event. Training uses common intelligence systems, but focuses on developing intelligence skills not system functionality.</p> <p>b. ITT refines and exercises the following critical intelligence skills: fusion and analysis, internal and external information dissemination, Red/White tactical database management, intelligence research, message generation, OPINTEL/threat briefing, target folder construction, and SOP refinement and validation.</p> <p>c. Team training is a three-tiered program that increases in scope and complexity. Ship's company and PHIBRON intelligence personnel must complete three ITT sessions prior to deployment (Inhouse ITT, Afloat ITT, and CITT).</p> <p>COMMENT: TACRON intelligence and cryptologic personnel, BFEA's and C2W personnel should also participate.</p>
D-140	<p>EWTGPAC ARG/MEU (SOC) Staff Planning Workshop: The N2 participates in this crash course in R2P2 with the first week in the classroom and the second week on board</p>

	the flagship. This is the first opportunity in the workup cycle for Navy and USMC intel personnel to work together as well as to develop working relationships with Force Recon, SEALs,  JICO, and Flag Plot/LFOC consumers of intelligence.
D-120	BGARGIT: Hosted by TACTRAGRUPAC, consists of two to three days of planning followed by a one day ENWGS wargame. ARG planners participate in ENWGS from EWTGPAC.
D-90	Afloat Intelligence Team Trainer: Conducted underway, the afloat team trainer runs opintel scenarios on the systems the intel/cryptologic team will use on deployment. This allows supervisors to tailor SOP's to their specific systems and workspace. All JIC, Staff and TACRON intelligence personnel participate. Recommend that BFEA's and C2W personnel attend as well.
D-90	Comprehensive Training Unit Exercise COMPTUEX/MEUEX: This intermediate training phase is the first opportunity for the ARG to work together. Simultaneously, the MEU conducts general amphibious operations. The MEU S2 organization also supports Training in an Urban Environment (TRUE) during this same time frame which involves the Maritime Special Purpose Force (MSPF) and may include missions such as a VBSS and GOPLAT takedown.
D-90	COMPHIBGRU THREE Mentoring Session 2: The second mentoring session should include an update on the LRTP, status of systems, planned information flow, manning and training levels, cryptologic capabilities, augmentation teams.
D-90	Predeployment Intelligence Conference (PIC)- K-243-5036: The second phase of the three phase ARG planning conferences. PIC provides two to three days of tailored operational intelligence briefings prior to deployment. Routinely includes briefings by ONI/JICPAC/JICCEN/NCIS/GRSOC covering intelligence support issues, geo-political concerns, and threat updates. COMMENT: Recommend maximum participation from intelligence personnel and operators from both the MEU and the ARG.
D-80	Force Protection Exercise: The ISIC designs a scenario to simulate an overseas port call. This exercise flexes the overseas duty schedule, working through different force protection conditions and measures. It provides an opportunity to test intelligence SOP's for watches, collection, production, and dissemination in foreign ports.
D-60	FLEETEX: The N2 and SIO develop an intel scenario and message injects to support the amphibious exercises. Sources for scenario development include FITCPAC and the previously deployed ARG.
D-45	Cryptologic Intelligence Team Trainer: The CITT integrates SSES and EXPLOT by working through a series of computer based scenarios in SUPPLOT/SESS mock-ups at

	FITCPAC and FCTCPAC.
D-45	Staff Liaison Visits: CVBG and ARG staff travel to three primary sites for liaison visits: DC, Hawaii and Tampa. In DC, the N2/S2, and CRC visit CIA, ONI and NSA. In Hawaii, the N2/S2/CRC visit JICPAC, the targeting cells, and analysts.
D-45	ARGCERT/SOCCERT: Senior Officer Observer Team (SOOT) embarks to provide observations and training assistance. Scenario encompasses a variety of operations to include a LRHR, NEO, HAO, VBSS, DA missions, and a amphibious assault. This process certifies the Navy/Marine Corps team's ability to successfully conduct Special Operations as an ARG.
D-30	COMPHIBGRU THREE Mentoring Session 3: Provides the final update of man, train, and equip issues. This session should inform the ISIC on what issues have not been resolved prior to deployment and identify the impact on intelligence/cryptologic operations.
	POST-DEPLOYMENT BRIEF: Post-deployment brief and open forum designed to review and evaluate ARG intelligence support architecture and pre-deployment training. Briefers include the PHIBRON N2, MEU S2, and Amphibious flagship Intelligence Officer. The PHIBRON N2, PHIBGRU N2, and COMTHIRDFLT J23 coordinate and schedule the forum to convene as soon as possible following deployment. FITCPAC/JITAP typically host this briefing. The PHIBRON N2 and SIO/ASIO should also review expeditionary warfare course curricula at FITCPAC/JITAP, EWTGPAC, ATG, TACTRAGRUPAC, FCTCPAC, and FIWC Det for realism and completeness.

NOTIONAL TRAINING TEMPLATE

SUBJ: LONG RANGE TRAINING PLAN FOR CPR INTELLIGENCE/CRYPTOLOGIC PERSONNEL

Ref: (a) COMPHIBGRUTHREEINST 3870.1F
(b) COMNAVSURFORINST 3502.1

1. Purpose. To establish a long range pre-deployment training plan for intelligence/cryptologic professionals deploying with _____ Amphibious Ready Group (ARG).

2. Background. Reference (a) assigns Amphibious Squadron Intelligence Officers the overall responsibility of development and execution of the cryptologic and intelligence training plan. Reference (b) establishes formal training requirements and shipboard exercises for all ARG ships and staffs.

3. Discussion. This document provides a general training plan that encompasses the entire work-up cycle. Detailed quarterly training plans will be generated from this document and provided to COMPHIBGRU THREE N2. Enclosure (1) lists formal training required for specific personnel. If possible, all required formal training will be completed by D-150. The period from D-180 until deployment will focus primarily on systems training and completion of required fleet exercises as set forth in reference (b). Formal training for systems is limited, but points of contact listed will provide ad hoc training.

4. Responsibilities.

a. PHIBRON N2. The N2 determines overall training requirements in accordance with pertinent references and specific deployment needs. The N2 will provide quarterly training/readiness updates to the PHIBRON Commander and CPG-3 N2.

b. Ships Intelligence Officer/Cryptologic Resource Coordinator (SIO/CRC). The SIO and CRC will review manning, schools, and NEC requirements to assist in the development of the Long-Range Training Plan. Each will develop their respective Quarterly Training Plans to include required training to be completed during the quarter, quota assignments, OJT, and other in-rate training.

c. Training Petty Officer. The Training Petty Officer will be responsible for quota control, documentation of completed training, and quarterly training plan assistance.

5. Action. The SIO, ASIO, CRC and Senior Enlisted will familiarize themselves with this plan and incorporate training into the ship's employment schedule.

D-140		N2/SIO	TEST JDISS/SIPRNET CONNECTIVITY WITH COMMANDS THAT ARG/MEU WILL DEAL WITH ON DEPLOYMENT (COMUSNAVCENT, C7F, JICPAC, CV/CVN)
D-140	JICPAC	N2	JICPAC CSC REP BRIEF JICPAC SERVICES / DB'S / RFI PROCESS / ETC
D-120	ONI/DIA/NIMA/ETC.	N2/SIO	REPLACE PUBS WHERE POSSIBLE W/ CD-ROMS
D-120		SIO/ADP	CONDUCT ADP SECURITY DISK INVENTORY
D-110		RADBN	INSTALL TCAC IN SSES / TRE FEED TO TCAC
D-110		N2/S2/SIO	COMPLETE DRAFT JIC SOP INSTRUCTION
D-110		SIO	SHIPS LANGUAGE LIST TO PHIBRON N2
D-100		SIO	ENSURE FLAGSHIP GROOMED FOR NIST / JILE / SOCOM SUPPORT
D-90		N2	PUBLISH FINAL JIC SOP

D-90		ALCON	ENSURE ALL CHANGES INCORPORATED INTO INTEL/CRYPPIE PUBS
D-90	NCIS FIELD OFFICE	SIO	SKED NCIS COUNTERINTEL BRIEF FOR CREW W/ ACCESS TO SECRET
D-90		N2/CNSPN21	GET STANDARD PACKAGE OF PASSWORDS FOR ALL AOR'S
D-90		N2	CHECK INTO COLISEUM VIA ONLINE OR JICPAC
D-90	D-90 BRIEF	N2	UPDATE STATUS OF CRYPT/ INTEL INSTALLS
D-90		N2	UPDATE CPG3 N2 ON LRTP
D-70		N2	SUBMIT DIA SHIPRIDER SUPPORT REQUEST
D-70		SIO	SHIPS RPT STATUS OF ON HAND HELO PHOTO EQUIP AND FILM
D-60		S2/SIO	COORD WITH SIO/COMBAT CARGO FOR DELIVERY OF MEU MAP PACK
D-60	JICPAC JSR	N2/S2/SIO	REVIEW JSRS AND PIM AND COORD W/ CVBG N2 FOR INPUT TO JICPAC
D-60	JIC SOP	N2/SIO/EIA	CONDUCT THREAT BRIEFINGS / RECCE FOR STAFF, MEU AND SHIP'S COMPANY
D-60		SIO/C4	SYSTEMS CONNECTIVITY AND IMAGERY TRANSFER TEST
D-60		N2/S2	SEND NOTICE OF INTEL POTENTIAL ON DEPLOYMENT PVSTS/EX
D-60	CNSP SIO HANDBOOK	SIO	COMPLETE NCIS COUNTER-INTEL BRIEFING (SECRET CLEARED PERSONNEL)
D-60	JIC SOP	SIO	PLOT TRANSIT PIM AND DEVELOP RECCE GUIDES ACCORDINGLY
D-45		S2	MSE'S SUBMIT LANGUAGE AND AREA SPECIALISTS ROSTERS
D-45		S2	REQUEST MARITIME IMAGERY SUPPORT PACKAGE
D-30	SANCTIONS	SIO/IWC/ CRC	BEGIN DETAILED TRACKING/HISTORY OF SANCTIONS VIOLATORS / PULL AND DEVELOP PRODUCTS
D-30		S2	REVIEW SAO PKG / CONDUCT INVENTORY (IF APPLICABLE)
D-30		N2/CRC	UPDATE INTEL / CRYPPIE CAPABILITY MESSAGE - SEND / JDISS
D-30		N2/N6/COM	COORD JIC / SSES CKT REQUIREMENTS / RESTORATION PRIORITIES
D-30	D-30 BRIEF	N2	UPDATE STATUS OF CRYPT/ INTEL INSTALLS
D-20	EOB DATABASES	IWC	BFEA'S START UPDATING EOB FOR GULF
D-20	OPNAVINST 5510.1H	SECMAN	ENSURE EMERGENCY DESTRUCT BILL IS FINALIZED AND DISSEMINATED
D-15	D-15 BRIEF	N2/S2/SIO/ CRC	FINAL LIAISON W/ INTEL CONTACTS PRIOR TO DEPLOYMENT
D-10		S2	SI / GENSER COMMS SHIFT FOR MEU
D-00	NAVCENT	N2	COORDINATE WITH NAVCENT N2 ON THEIR ADVANCE LIAISON VISIT
D+6	JICPAC	N2/S2/SIO	LIAISON VISIT TO JICPAC FOR TAILORED BRIEFINGS
D+90	PDIR	N2	SOLICIT INPUTS FOR PDIR FROM S2/SIO/CRC/RADBN/C2WC/OPS
D+120	PDIR	N2	BEGIN COMPILING PDIR
D+120	PD BRIEF	N2	SEND MSG TO CPF/CMFP ON SKED FOR PD BRIEF
D+120		N2	UPDATE N2 TURNOVER BINDER THRU END OF DEPLOYMENT

D+120		N2	PUT TOGETHER POST-DEPLOYMENT INTEL DEBRIEF (BASED ON PDIR)
D+150		N2	PDIR COMPLETE
Post-Deploy .	CPG3INST 3000.1	N2/S2/SIO/ CRC	TIBP PHASE THREE (N2 BRIEFS PDIR)

Enclosure (4)
